

St. Joseph Island District High School (SJIDHS)

The 50th Year Reunion 2022

50 years have slipped past since our St. Joseph Island District High School closed as a secondary school. A committee has been formed to quantify the interest in holding a celebration of our unique school and planning this milestone reunion. The selected dates are Wednesday August 24 and Thursday August 25, 2022.

Our initial thoughts are having a wine and cheese, meet and greet on Wednesday August 24 and a dinner dance on Thursday August 25. Both events would be held at the Royal Canadian Legion in Richards Landing.

As you can imagine, we do have a list of alumni but require current contact information. We have a representative from each graduating class attempting to contact their classmates and we are posting this notice on social media. If you are contacted or view this notice, please inform any former students with whom you are still in contact. Please respond to inform us if you are interested and available. We also need to know if you are unable to attend to verify that you are aware of the reunion.

When we have an estimate of the number of interested people, including their contact information, we will send a finalized plan for the event. At that time, you can decide if you will be attending. We hope to include everyone possible.

Please return the following information at your earliest convenience as time is of the essence for the planning process
