<b>Item</b>	<b>Received From/Description</b>	<b>Action Recommended</b>
A	Municipality of Huron Shores Re:	Receive
B	Township of Howick Re: Suggested amendments to the Tile Drainage Act	Support
C	Niagara Region Re: Schedule 6, Bill 197, Covid-19 Economic Recovery Act, 2020	Support
D	Township of Glengarry Re: Request for increased Covid 19 vaccine distribution rate	Support
E	City of Sarnia Re: Request for adjustment of colour coded capacity limits for entertainment, dining, and recreation sectors	Support
F	Covid-19 Vaccine Distribution Task Force Re: Update on Ontario vaccination program	Receive
G	Ontario Fire Marshall Re: Fire college training modernization	Receive
H	Ministry of Natural Resources Re: Inspection of 2021-2022 annual work schedule for the Algoma Forest	Receive

Recommendation: Be it resolved that items A through H listed on the Consent Agenda dated March 17, 2021 be received; and

That the recommended actions be taken.

*The Corporation of the  
Municipality of Huron Shores*

Office of the Mayor

04 March 2021  
Via email

Dear First Nation Chiefs, Municipal Mayors and Councils:

***RE: H&M COFI Update #5***

Following my last update, the Municipality of Huron Shores proceeded with the necessary paperwork to incorporate a corporation for the H&M COFI (Huron Shores and Manitoulin Island Community Owned Fibre Infrastructure) Project and the incorporation papers were received on February 23<sup>rd</sup>, 2021. A founding board has been established to move the project to the next phase. The website, [www.hmcofi.com](http://www.hmcofi.com), is now up and running. We have taken the liberty of including the logos of those who have shown support for the project. Please advise if you do not wish your logo to be included. Up-to-date information about the project has been posted and we ask that you share the site with all the ratepayers and residents of your communities.

At this moment, H&M COFI and its team is in the process of completing the application for the Universal Broadband Fund Program through the Federal Government. Meanwhile, we are anxiously waiting for news regarding the ICON Stage 2 Program from the Provincial Government.

The partnership between the Municipality of Huron Shores and ROCK Networks Inc. and all of your letters of support have brought this project to a point where we can see it becoming a reality.

Presently, members of the Board are contacting Educational Institutions and presenting H&M COFI and the advantages to the educational system into the future. Additional letters of support are being solicited for H&M COFI.

The Board members and the Team are diligently seeking input and ideas for a logo and catch phrase for forthcoming marketing.

A collaboration agreement for all our partners is in the draft stages. This document will be forwarded to all to seek your participation. The document will elaborate on the membership aspects for all partners.

Discussions are ongoing concerning the final plan to finance H&M COFI. Many options have been put forward; from full Community ownership to private partnerships. The questions become: how much do the partners wish to partake in the eventual revenues to be generated; do the partners wish to invest in order to retain ownership; are we concerned if principal lenders take over and remove all revenues from the Region; how might we leverage a portion of the finances together? The financing decisions will be required in the near future considering that both ICON and UBF announcements are due in early April.

Future correspondence respecting the H&M COFI Project will come directly from the Corporation. I wish to thank all Municipalities and First Nations for listening to our presentations over the past few months and for supporting this massive undertaking. Together, we will obtain effective broadband for all members within our Communities.

Yours truly,

A handwritten signature in cursive script that reads "Georges Bilodeau".

Georges Bilodeau  
Mayor

**Background Information to the Township of Howick  
Resolution No. 288-20 Requesting Amendments to the  
Agricultural Tile Drainage Installation Act**

**Rational for Proposed Amendments**

Over the years, Howick Township staff have received many requests for tile drainage information on farmland. Usually these requests come after a change in ownership of the farm. Some of these drainage systems were installed recently but many are 30 to 40 or more years old. Many were installed by contractors who are no longer in business or who have sold the business and records are not available.

Information is generally available if the tile was installed under the Tile Drain Loan Program because a drainage plan is required to be filed with the municipality. If the tile system was installed on a farm without using the Tile Drain Loan Program, there likely are no records on file at the municipal office.

The other benefits to filing tile drainage plans with the municipality are identified in Section 65 of the Drainage Act.

- 65(1) – Subsequent subdivision of land (severance or subdivision)
- 65(3) – Drainage connection into a drain from lands not assessed to the drain
- 65(4) – Drainage disconnection of assessed lands from a drain
- 65(5) – Connecting to a municipal drain without approval from council

Section 14 of the Act states:

(1) "The Lieutenant Governor in Council may make regulations,

(a) providing for the manner of issuing licences and prescribing their duration, the fees payable therefor and the terms and conditions on which they are issued;

(a.1) exempting classes of persons from the requirement under section 2 to hold a licence, in such circumstances as may be prescribed and subject to such restrictions as may be prescribed;

(b) Repealed: 1994, c. 27, s. 8 (5).

(c) establishing classes of machine operators and prescribing the qualifications for each class and the duties that may be performed by each class;

- (d) providing for courses of instruction and examinations and requiring licence holders or applicants for a licence under this Act to attend such courses and pass such examinations;
- (e) prescribing the facilities and equipment to be provided by persons engaged in the business of installing drainage works;
- (f) prescribing standards and procedures for the installation of drainage works;
- (g) prescribing performance standards for machines used in installing drainage works;
- (h) prescribing forms and providing for their use;
- (i) respecting any matter necessary or advisable to carry out effectively the intent and purpose of this Act. R.S.O. 1990, c. A.14, s. 14; 1994, c. 27, s. 8 (4, 5)."

I believe it would be beneficial if a regulation required the installer, of agricultural drainage, to file a plan of the drainage system with the municipality following completion of the work.

While most of Section 14 deals with contractor, machine and installer licences, I think that Section 14(f) or 14(i) may allow a regulation change. This would be a better solution than an amendment to the Act.

**Recommendations:**

- Request by municipal resolution that the Ministry of Agriculture, Food and Rural Affairs amend the Tile Drainage Installation Act and/or the regulations, under the Act, that would require tile drainage contractors file all farm tile drainage installation plans in the Municipality where the installation took place
- Send the municipal resolution to:
  - Minister of Agriculture, Food and Rural Affairs
  - Lisa Thompson, MPP Huron Bruce
  - Randy Pettapiece, MPP Perth Wellington
  - Rural Ontario Municipal Association [roma@roma.on.ca](mailto:roma@roma.on.ca)
  - OFA
  - CFFO
  - All Ontario municipalities
  - the Land Improvement Contractors of Ontario (LICO), and
  - the Drainage Superintendents Association of Ontario (DSAO)

***SENT ELECTRONICALLY***

**Re: Schedule 6, Bill 197, COVID-19 Economic Recovery Act, 2020**

Regional Council, at its meeting held on February 25, 2021, passed the following resolution:

WHEREAS Schedule 6 of Bill 197, COVID-19 Economic Recovery Act, 2020 considers amendments to the Environmental Assessment Act relating to municipal autonomy and the principle that municipalities can veto a development outside their municipal boundary in an adjacent municipality;

WHEREAS Bill 197 empowers multiple municipalities to 'veto' development of a landfilling site within a 3.5 km zone inside the boundary of an adjacent municipality;

WHEREAS Bill 197 establishes a dangerous precedent that could be expanded to other types of development;

WHEREAS Bill 197 compromises municipal autonomy and the authority of municipal councils to make informed decisions in the best interest of their communities and municipal taxpayers; and

WHEREAS amendments in Schedule 6 could cause conflict in the effective management of landfill sites, put significant pressure on existing landfill capacity, and threaten the economic activity associated with these sites.

**NOW THEREFORE BE IT RESOLVED:**

1. That while the Region of Niagara supports the Act's open-for-business approach, the municipality **CALLS** upon the Government of Ontario (Ministry of the Environment, Conservation & Parks (MOECP) to amend Bill 197, COVID-19 Economic Recovery Act, 2020, to eliminate the development approval requirement provisions from adjacent municipalities and that the 'host'

municipality be empowered to render final approval for landfills within their jurisdiction;

2. That a copy of this motion **BE FORWARDED** to Premier Doug Ford, Jeff Yurek, Minister of Environment, Conservation and Parks, Steve Clark, Minister of Municipal Affairs and Housing, local M.P.Ps., and the Association of Municipalities Ontario (AMO) and;

3. That a copy of this resolution **BE FORWARDED** to all Ontario municipalities with a request for supporting motions to be passed by respective Councils and copies of the supporting motion be forwarded to Premier Doug Ford, Jeff Yurek, Minister of Environment, Conservation and Parks, Steve Clark, Minister of Municipal Affairs and Housing, local Members of Provincial Parliament, and the Association of Municipalities Ontario (AMO).

In accordance with the resolution, it is respectfully requested that your municipality consider passing a supporting resolution to be forwarded to Premier Doug Ford, Jeff Yurek, Minister of Environment, Conservation and Parks, Steve Clark, Minister of Municipal Affairs and Housing, local Members of Provincial Parliament, and the Association of Municipalities Ontario (AMO).

Yours truly,

Ann-Marie Norio  
Regional Clerk

CORPORATION OF THE TOWNSHIP OF SOUTH GLENGARRY

MOVED BY Lyle Warden RESOLUTION NO 75-2021

SECONDED BY Sam McDonnell DATE March 1, 2021

WHEREAS COVID-19, a disease caused by the 2019 novel coronavirus, has resulted in the deaths of almost 7,000 Ontarians;

AND WHEREAS Canada currently lags behind dozens of nations in terms of the proportion of the population that has received doses of COVID-19 vaccines;

AND WHEREAS the federal government has moved too slowly and is failing to foster domestic vaccine-production capacity;

AND WHEREAS the number of administered vaccines in Ontario is not keeping pace with the number of doses that have been received by the provincial government;

AND WHEREAS the provincial COVID-19 vaccine booking system is not yet operational;

NOW THEREFORE BE IT RESOLVED THAT the Council of the Township of South Glengarry urges Premier Doug Ford and the Province of Ontario to procure approved COVID-19 vaccines to be distributed to the residents of the Province of Ontario, increase the Province's vaccination rate to keep pace with the doses that have been received and accelerate the launch of its COVID-19 vaccine booking system;

AND FURTHERMORE that this resolution be forwarded to Premier Doug Ford, MPP Jim McDonnell, Hon. Christine Elliot, Minister of Health, Hon. Peter Bethlenfalvy, Minister of Finance and all Ontario municipalities.

CARRIED

DEFEATED

March 4, 2021

The Honourable Doug Ford  
Premier of Ontario  
Legislative Building  
Queen's Park  
Toronto, ON M7A 1A1

Dear Premier Ford,

**Re: Colour Coded Capacity Limits**

At its meeting held on March 1, 2021, Sarnia City Council discussed the challenges local businesses are facing with respect to the colour coded system within the Province's COVID-19 Response Framework. The following motion was adopted:

***That Sarnia City Council strongly advocate to the Province of Ontario that they adjust the capacity limits for dining, restaurants, sporting and recreational facilities, places of worship, event centers, and all retail/small businesses as part of the colour coded system.***

The following rationale was provided with the introduction of the motion:

- The red zone currently only allows 10 people indoors at a dining or a sporting / recreational facility (regardless of the size), places of worship are capped at 30% or 50 people, and retail / small business is limited to a 50% capacity.
- These businesses and organizations have heavily invested in facility improvements and expensive upgrades to ensure safe social distancing and have all the appropriate safety and protection measures in place.
- Businesses in particular cannot properly plan under the current uncertainty and that means the loss of jobs and income for both workers and owners as well as mental health challenges.

- Indoor capacity limits for restaurants, dining, sporting / recreational facilities, event centers, retail / small business, and places of worship should not involve arbitrary numbers (regardless of size), but instead be changed to the amount of people per facility which ensures that strict and safe social distancing can be maintained.

Sarnia City Council has requested that all municipalities in Ontario join this advocacy effort.

On behalf of Sarnia City Council, I look forward to your reply.

Sincerely,

Amy Burkhart  
Acting City Clerk

March 12, 2021

We have reached a major milestone - over 1,000,000 doses of vaccines have been administered in Ontario. While we should reflect on how far we have come, we must not stop pushing forward as this is only the beginning of the journey. There are many more vaccinations to administer to reach our goal of ensuring that every eligible Ontarian who wants a vaccine, receives one.

Ontario has reached another key milestone in protecting remote and isolated Indigenous communities against COVID-19, having visited all 31 fly-in northern communities and Moosonee to offer first doses of the vaccine as part of Operation Remote Immunity (ORI).

ORI is led by Ornge and was co-developed in partnership with the Nishnawbe Aski Nation (NAN) to ensure engagement of Indigenous leadership in how vaccines are offered to their communities.

ORI was officially launched on February 1, 2021 and aims to complete its work by the end of April 2021. The vaccine is being offered to community members 18 years of age or older. As of March 8, 2021, a total of 15,960 doses (12,843 first doses and 3,117 second doses) of the COVID-19 vaccine have been administered in Sioux Lookout and communities in scope for ORI. Administration of second doses has been completed in seven communities and is currently underway in nine more communities this week.

With vaccine supply stabilizing and over two million doses of the COVID-19 vaccine expected from the federal government before the end of March, the province will enter Phase Two of its vaccine rollout. Between April 2021 and July 2021, up to nine million Ontarians will be vaccinated.

During Phase Two, groups that will receive the vaccine include:

- Older adults between 60-79 years of age;
- Individuals with specific health conditions and some primary caregivers;
- People who live and work in congregate settings and some primary caregivers;
- People who live in hot spots with high rates of death, hospitalizations and transmission; and
- Certain workers who cannot work from home.

For more detailed information on the priority groups, please visit:

<https://news.ontario.ca/en/backgrounder/60570/populations-eligible-for-phase-two-covid-19-vaccination>

Starting March 15th, the province will launch an online booking system and a provincial customer service desk to answer questions and support appointment bookings at mass immunization clinics. This will initially support individuals over the age of 80 as part of Phase One, eventually extending to more groups during Phase Two. While some public health units are currently using their own booking systems to vaccinate individuals aged 80 and over, it is anticipated that most public health units will transition to the provincial booking system after it has launched.

With the approval of the AstraZeneca/COVISHIELD and Janssen (Johnson & Johnson) vaccines, and increased supplies coming into the province, we will be able to ramp up the number of doses administered daily. As supply increases, Ontarians will be able to get vaccinated in several new settings. In addition to hospitals, mobile clinics and mass vaccination clinics, the province is working with the pharmacy sector and with primary care professionals to offer vaccinations in primary care settings and community locations in collaboration with public health units.

NACI has provided the recommendation to extend the vaccination dose interval up to four months for all Health Canada approved COVID-19 vaccines while maintaining a strong and sustained level of protection from the virus. This news along with the approval of new vaccines will help us to reforecast and maximize the number of people receiving a first dose in a shorter timeframe, pending supply from the federal government. Ontario has accepted and will follow NACI's recommendations starting March 10th, with some limited exceptions.

Thank you, as always, for your continued support and leadership in our efforts.

Sincerely,

General (Ret'd) Rick Hillier  
Chair of the COVID-19 Vaccine Distribution Task Force

# COMMUNIQUE

du commissaire des incendies

March 4, 2021

No. 2021-02

## ONTARIO FIRE COLLEGE TRAINING MODERNIZATION

This Fire Marshal's Communiqué is issued as a follow up to the January 13, 2021 announcement regarding the decommissioning of the Ontario Fire College (OFC) and the modernization of fire safety training in Ontario.

This Communiqué provides an overview of OFC training modernization through several modes, including online and blended courses, Regional Training Centres (RTCs) and Learning Contracts.

A fire department's training program should be designed to meet its set level of fire protection service, based on its needs and circumstances, and guided by the advice of the fire chief. A training program can include a combination of different OFC training modes as well as local in-house training.

While the decommissioning of the OFC campus in Gravenhurst is set for March 31, 2021, staff will continue to play a leading role in developing training courses. This will include curriculum design and development, registration services, online training development and maintenance, training development to build capacity in RTCs, and monitoring performance and quality assurance of programs at the local level.

As part of this plan, OFC instructors will be assigned regionally so that fire departments have a central point of contact for all training inquiries within their region. Instructors will work collaboratively to ensure the availability of training across Ontario.

Available options for OFC training are outlined below:

1. Online and Blended Courses
2. Learning Contracts
3. Regional Training Centres (RTC)
4. Mobile Live Fire Training Units (MLFTUs)

Inquiries on any of the options available, or how to contact the instructor assigned to your region can be directed to Guy Degagne, Assistant Deputy Fire Marshal, Training and Certification (Guy.Degagne@ontario.ca).

## 1. Online and Blended Courses

Online courses are generally self-paced, which allows for greater flexibility in completing coursework.

Blended courses have a portion of the course online, combined with specific in-person training sessions. The purpose of blended learning is to focus in-person training to elements that cannot be taught online. Blended courses are offered through RTCs or Learning Contracts.

The following courses are available in either an online and/or blended format:

Course	Online	Blended
Legislation	X	
NFPA 1521	X	
NFPA 1031 – Level 1	X	
NFPA 1035 – PIO	X	
NFPA 1035 – Level 1	X	
NFPA 1021 – Level 1	X	X
NFPA 1021 – Level 2		X
NFPA 1021 – Level 3		X
NFPA 1021 – Level 4		X
NFPA 1041 – Level 1	X	X
NFPA 1041 – Level 2		X
Fire Code – Part 2	X	
Fire Code – Part 6	X	
Fire Code – Part 9	X	
NFPA 1001 – Level 1		X
NFPA 1001 – Level 2		X
NFPA 1002		X
NFPA 1006 – Ice/Water Rescue		X
NFPA 1033 – Fire Investigator		X

The remaining National Fire Protection Association (NFPA) courses are scheduled to be upgraded to online and/or blended by the 2022-23 OFC calendar year. These include:

Course	Online	Blended
NFPA 1031 – Level 1	X	
Fire Code – Part 3	X	
Fire Code – Part 4	X	
Fire Code – Part 5	X	
Courtroom Procedures	X	X
NFPA 1072 Haz Mat Operations		X

## **2. Learning Contracts**

Learning contracts provide access to OFC programs through in-house training that is affordable and scalable, and they are provided at the local fire department at their pace. Learning contracts are set up within one fire department, but there is an opportunity for smaller departments to share in the training.

The OFC supports learning contracts with full OFC course delivery including full registration in the OFC database; OFC course numbers; OFC course material; OFC assistance with arranging ASE testing; OFC support in case of Ministry of Labour investigations; and OFC certificates of completion for each student.

Course delivery costs \$65 per student. Training can occur during working hours to reduce overtime costs and can be provided by fire departments' training staff.

## **3. Regional Training Centres (RTC)**

RTCs are operated by municipalities, community colleges, or associations. They are strategically located across the province and provide access to training for career, composite, volunteer, Northern Fire Protection Program (NFPP), and First Nations fire departments.

RTCs are capable of delivering all NFPA programs, including certification testing, and courses meet professional qualification standards including classroom and outdoor fire ground training. It is important to note that course availability across Ontario will be based on a needs analysis that must support local fire departments and the RTC's infrastructure and capacity to deliver.

A number of factors may result in cost savings or avoidance for fire departments that train at RTCs including mileage to and from the home location, costs to backfill fire department personnel, meal reimbursement, banked time and overtime costs.

The interest to open and operate a new RTC has grown significantly since the announcement in January. A map of current RTC locations is provided below, along with some additional locations being considered. Please note that potential locations are continually being updated and not all locations are reflected in the attached map.

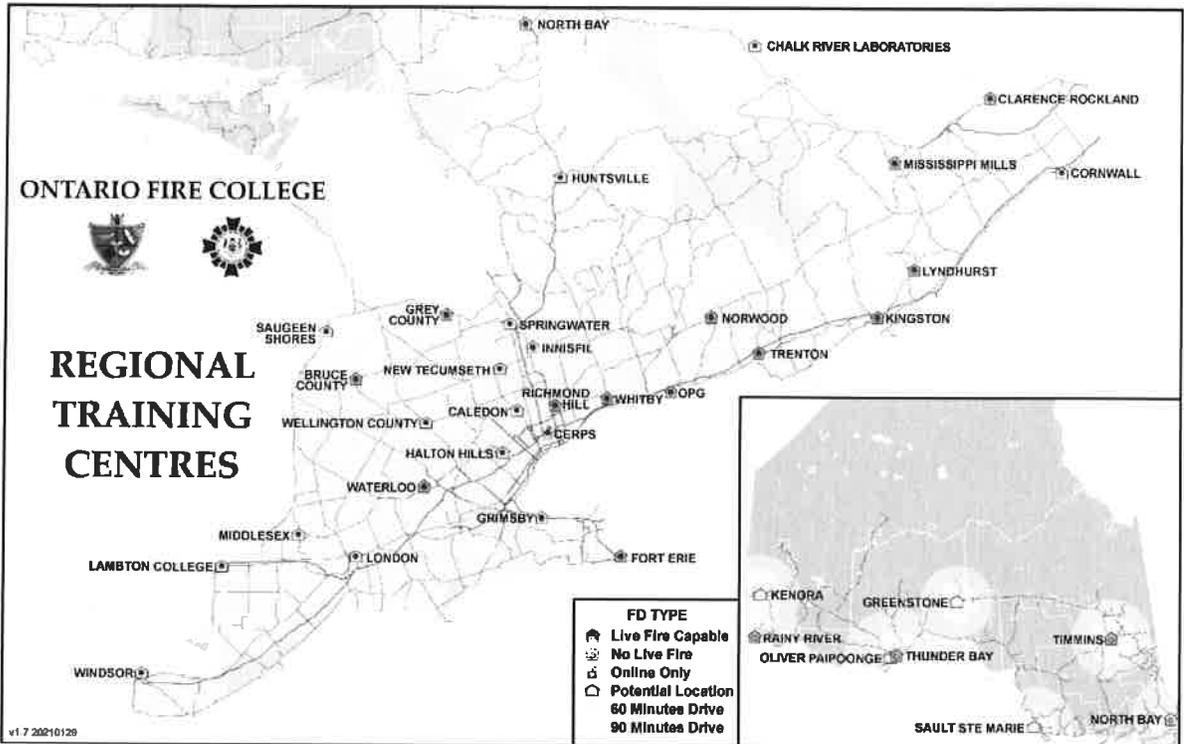

## **4. Mobile Live Fire Training Units (MLFTUs)**

The OFM has purchased two mobile live fire training units that will be available to fire departments across Ontario. In order to support training across the province, one unit will be deployed in northern Ontario and one in southern Ontario. However, this will be continually reviewed to assess where there is the greatest need.

The MLFTUs offer diverse options for live fire training to meet the unique needs of training including: a confined space rescue hatch; main level training rooms; different attack options; multi-prop fire simulators; and portable props.

The OFM will be deploying these units in 2021 and can have them delivered to any location. The MLFTUs will need to be booked in advance and will be available seasonally between May and October. Please contact the OFC Registrar at [ApplyOFC@ontario.ca](mailto:ApplyOFC@ontario.ca) to reserve a unit.

# INSPECTION

## Inspection of 2021–2022 Annual Work Schedule for Algoma Forest

The April 1, 2021 – March 31, 2022 Annual Work Schedule (AWS) for the **Algoma Forest** is available electronically for public viewing by contacting **Clergue Forest Management Inc.**, during normal business hours. It is also available on the Natural Resources Information Portal <https://nrp.mnr.gov.on.ca/s/fmp-online> beginning **March 15, 2021** and for the one-year duration of the AWS.

### Scheduled Forest Management Operations

The AWS describes forest operations such as road construction, maintenance and decommissioning, forestry aggregate pits, harvest, site preparation, tree planting and tending that are scheduled to occur during the year.

### Tree Planting and Fuelwood

Clergue Forest Management Inc. is responsible for tree planting on the Northshore Forest. Please contact the Clergue Forest Management Inc. contact listed below for information regarding tree planting job opportunities.

For information on the locations and licence requirements for obtaining fuelwood for personal use, please contact the MNR contact listed below. For commercial fuelwood opportunities, please contact the forest company contact listed below.

### More Information

For more information on the AWS, to arrange a remote meeting with MNR staff to discuss the AWS or to request AWS summary information, please contact the MNR contact below:
